

HOW TO BUY A LICENCE AND ACTIVATE THE SOFTWARE

Due to enormous server costs we cannot develop this software totally for free anymore. We tried to finance project from donations but we collected only a drop in the bucket. We don't want to force you to buy a licence, so you can still use this tool for free but you will need to wait 8 hours for calculation.

If you want to unlock phones immediately you need to buy a licence for \$6. This manual shows how to buy a licence and activate the software so you don't need to wait for calculation.

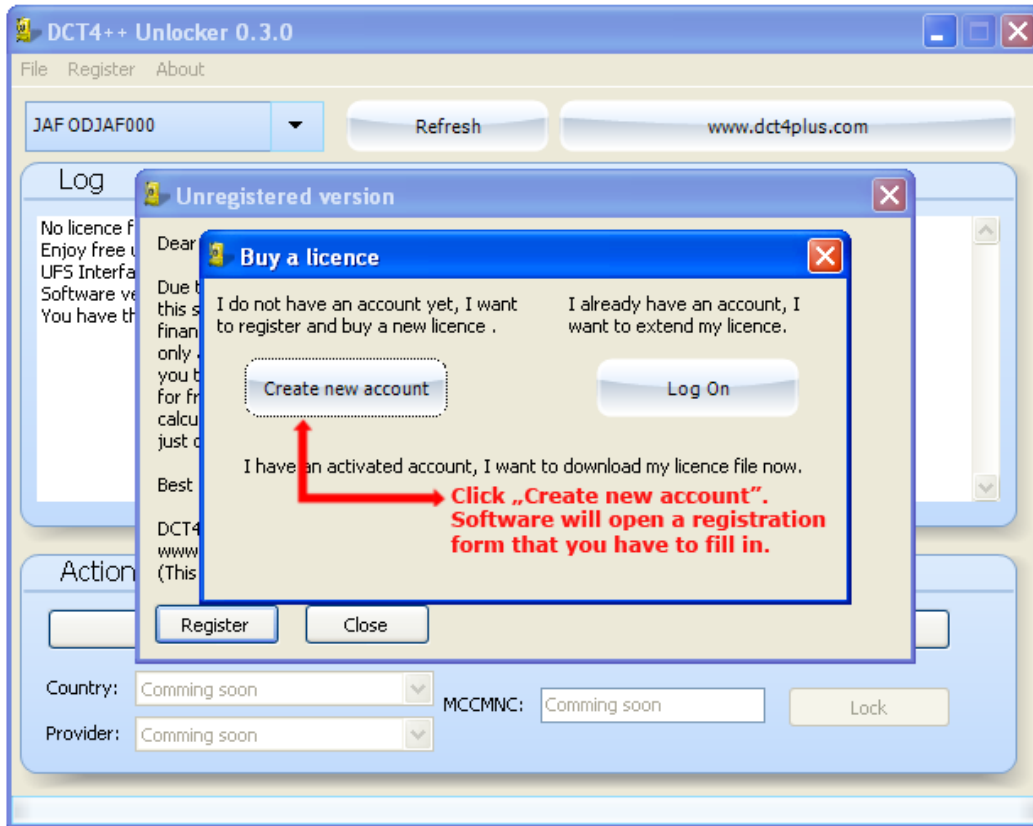

STEP 1

1. Download latest version from: unlocker.zip
2. Open software, and click Register button.

STEP 2

Notice: If you bought an account from the reseller, proceed to STEP 5 now.

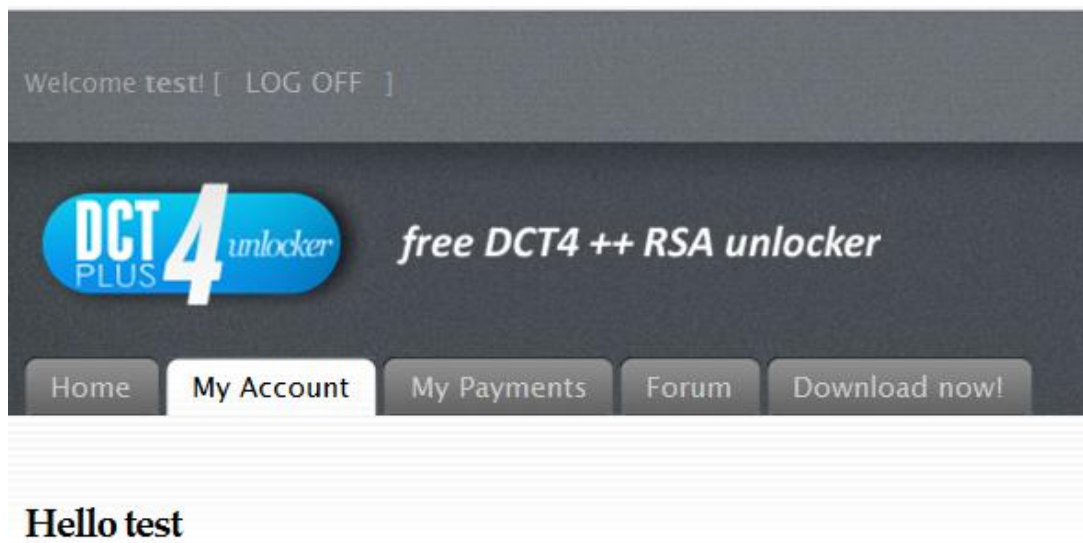

STEP 3

Software opens a registration form.

The screenshot shows the registration form for DCT4++ RSA unlocker. The header includes the logo 'DCT4 PLUS unlocker' and the text 'free DCT4 ++ RSA unlocker'. Below the header are navigation buttons: 'Home', 'My Account', 'Forum', and 'Download now!'. The main heading is 'Create a New Account'. Below this, there are instructions: 'Use the form below to create a new account. You will be able to use your account only on THIS computer. Passwords are required to be a minimum of 6 characters in length. Please be sure you will remember your login and password as they will be necessary in next step.' The form is titled 'ACCOUNT INFORMATION' and contains the following fields: 'Username:' with the value 'test'; 'Email:' with the value 'test@gmail.com'; 'Password:' with a masked field of 6 dots; and 'Confirm password:' with a masked field of 6 dots. A red arrow points from the text '1. Fill in all fields.' to the form fields. Another red arrow points from the text '2. Click „Register“ button.' to the 'Register' button.
